

# LIFETIME LADY

Ted Schempp

Proverbs 31:10-31

- VERSE:           The day I first, laid eyes on you  
                      The Lord spoke to my heart  
                      He said to wait, and pray for the love  
                      Hidden deep in your heart
- CLIMB:           And when we were joined together  
                      I made a promise with you  
                      To always stay together  
                      And keep on working' it through
- CHORUS:          'Cause you're my Lifetime Lady...(yes, you are)  
                      You're my lifetime lover  
                      You're my Lifetime Lady  
                      I don't want no other....(No!)  
                      Lifetime Lady.....Lifetime Lady
- VERSE:           Everyday can't be smooth sail in'  
                      Rough winds are gonna blow  
                      Through whatever storm we're facing', Oh  
                      I always want you to know
- CLIMB:           No shifting tide around us  
                      Will ever sweep us away  
                      Our love is built on "The Rock"  
                      And it won't crumble away                   Chorus
- BRIDGE:          "One love won't last forever"  
                      I've heard it said before  
                      But what I know is a lie  
                      A lie of the world.....I choose to ignore   Chorus
